

Startup Investment Lawyer needed

Have you studied German corporate law and have just graduated or are close to graduating from the law school in Germany, preferably in Berlin? Do you know how to structure investment deals at early-stage startups? Would you like to collect professional experience and help a female-led early stage social enterprise?

We need a lawyer who will support us with structuring an investment deal (a very small investment from a business angel) and drafting legal documents (Investment contract and Liquidation preference agreement). We will be able to offer a small compensation after the deal is signed (investment is secured as the investor has worked with one of the founders) and we will need to work on other legal documents in the future, with an opportunity to become employed by the company once series A investment is secured.

If you:

- have outstanding academic record during your legal studies
- have some practical experience in legal firms or corporate finance, preferably startups and investment in startups
- speak and write fluent legal German and English

Please write to us, we are excited to hear from you!

There will be an opportunity to be mentored by an experienced lawyer during the engagement period but we will be happy if you have your own mentor to assist you!
